

Build My Zion - Part 1

Excerpts of a Message given by Ray Zinser, 1974 at East Alton Congregation

For centuries, I have called men and women to build my Zion. Yea even today Zion would be built and there would be flowing from the Center place of Zion to the sin sick world a message of peace and love which can be found only in my kingdom. Many of you have sought happiness in iniquity, which cannot be. Many have sought other idols and gods other than me. Ye have not served me but have served him who is the heart and soul of disguise, deceit and rebellion. ... **But my promises and covenants are true and as the prophet Fredrick M. Smith said, "You will tremble with joy in the spirit of Restoration and you will be protected by that spirit which provides for physical and spiritual safety in the hour of need."**

So, I call you this morning to the same kingdom for which the risen Lord pled and bled and arose to bring forth. It is the same kingdom that I called young Joseph to build. It is the same kingdom the world calls for in its hour of agony. **Know ye not there is no other way than that of my Son? Know ye not that ye have been asked to build this Kingdom, an honor beyond comprehension and a glory beyond understanding when fulfilled?**

Search and ponder my scriptures carefully that ye might know the truth that this truth might set you free, in your personal lives, and in your family lives and your congregational lives. (...to be continued.)

Build My Zion - Part 2

Excerpts of a Message given by Ray Zinser, 1974 at East Alton Congregation

The call will soon come to build my Kingdom. It is my good pleasure to give you the Kingdom when you turn to me in righteousness and holiness. This gift have I prepared for this day and age. Not only for your joy and fulfillment but as a light which goes forth to the world before the closing days.

Call your families together in family alter. You are instructed to return to your homes and develop plans of scripture study and family worship that will bring you close to me that my spirit may be with you in your daily walks, not only to protect your physical presence in the days of violence which are ahead but to bring spiritual uplift and understanding which will allow you to know me and share me with others who stand in distress.

Many of you come with heavy hearts this morning because there are loved ones that are without the pale of the gospel of Jesus Christ or who have rebelled against me. **I call you to prayer,** that by angelic host these that you will pray for will have the kind of spiritual motivation and transformation which comes only by the Holy Spirit to respond to me.

There are sick among you that could be healed. There are lame among you who could walk. There are blind among you who might see ... **if you would but respond to me in this moment of need and exercise a particle of faith and experiment upon my word and build my Kingdom.** Then the priesthood shall be endowed from on high and hands shall be placed upon heads and the healing process shall come not merely to bring restoration of physical wellbeing but the ultimate of all human experience is the restoration of the spirit of God which lasts forever and ever.
